

## Cookie policy

### ***Definitions, characteristics and application of the legislation***

Cookies are small text files sent by the websites visited by users and recorded on the users' computer/mobile device, so that they will be re-sent to the same sites the next time the user logs on. Thanks to cookies, a website can remember the user actions and preferences (such as login details, preferred language, font size, other visual settings, etc.) so that the user doesn't have to set these preferences again the next time they visit the website, or even when they move to a different page on the same website. Therefore, cookies are used for informatic authentications purposes, to monitor sessions and to memorize data regarding user activities when browsing a website. They may contain a personal identification code that allow to track the user's activities into the website for statistical or advertising purposes. While navigating on a website, the user's computer may receive cookies from websites or web servers different from those used by the website being visited (so-called "third-party cookies"). Some operations may be impossible to perform without the cookies use, as in some cases they are vital to the technical functioning of the website.

Varied types of cookies exist, with different characteristics and functions, and they may remain on the user's device for varying lengths of time: "session cookies", which are automatically deleted as soon as the browser window is closed, and "persistent cookies", which stay on the user's computer until a previously established length of time has elapsed.

According to Italian legislation, on cookies use, it is not always necessary for the website user to give their express consent. Particularly, "technical cookies"- i.e. those used for the sole purpose of completing the transmission of information on an electronic communication network, or to the extent that is strictly necessary to provide a service explicitly requested by the user – are used without express consent. In other words, technical cookies are those which are vital to allow the website to function or in order to carry out the user's requests.

Among the technical cookies that do not require an express consent for their use, are included:

- "analytics cookies", when they are used directly by the website administrator to gather aggregated information about the number of the users and how they browse the site;
- navigation or session cookies (for authenticating users);
- functionality cookies, which allow the user to navigate on the site according to a series of selected criteria (e.g. language, products selected for purchase) in order to improve the service provided to the same user.

For "profiling cookies" on the other hand - i.e. cookies designed to create profiles of the user that are used in order to send commercial messages in line with the preferences shown by the user when surfing the web in general – the express consent of the user must previously be obtained.

### ***Types of cookies used by the Website and option to (de)select***

The Website of A.S.D. GIRO DELLE DOLOMITI (<https://www.girodolomiti.com>), hereinafter ("**Site**") uses the following cookies that may be deselected, except for the third-party cookies: for these you will have to refer directly to the relative methods of selection and deselection for each cookie, for which we provide the relevant links:

- Navigation or session technical cookies which are strictly necessary either to allow the Website to function or to allow you to access content and avail of the requested services.
- Functional cookies, those used to activate specific Website functions as well as a series of selected criteria (for example, language) in order to enhance the service provided.

Important note: by turning off technical and/or functional cookies, you can make the Website unusable, or certain services or functions provided by the Website may become unavailable or fail to function correctly, therefore you could be forced to modify or manually insert certain information or preferences each time you visit the Website.

- Third-party cookies, i.e. cookies from websites and web servers different from those of GDD, used for third parties own purposes. We would like to point out that these third parties, listed below with the respective links to their privacy policies, are generally independent data controllers for the data gathered through the cookies they serve; therefore, you will have to refer to their policies on the processing of personal data, notices and consent forms (selection and deselection of their respective cookies), as stipulated in the above-mentioned Order. This responsibility is not only for the cookies sent directly by the third parties, but also to any cookies sent through our Website during utilization of services third parties avail of. Concerning these cookies, which are sent by service providers to the aforementioned third parties, the GDD has no control over them, and does not know either their characteristics or purposes.

Below are the links to the relevant information on third-party cookies:

- Google: <https://www.google.com/policies/privacy/partners/>

A detailed table of the cookies sent by GDD through the Website is presented below:

#### **Cookies found on the Website**

**ga:** used to diversify the users (2 years)

**gat:** used to create objects per the Tracker (10 minutes)

#### **Cookie settings**

You can block or remove technical and functional cookies (either wholly or partially) by using specific functions provided by your browser. Nevertheless, we inform you that, if you do not authorize the use of technical cookies, it may be impossible for you to utilize the Website, view all the contents and make use of the available services. Blocking technical cookies could lead to certain services or functions provided by the Website being unavailable or failing to work correctly, and you may be forced to amend or manually insert either information or preferences every time you visit the Website.

The choices you make regarding the cookies used by the Website will in turn be recorded on a specially designated cookie. In certain circumstances, however, this cookie may not work correctly; if this happens, we recommend that you delete or block the unwanted cookies through your Browser.

If you subsequently use a different device or browser to access the Website, you will have to reset your cookie preferences.

#### ***How to view and make changes to cookies using the Browser***

Every browser has functions allowing you to authorize, block or remove cookies (either wholly or partially).
